## INTRODUCTION

Congratulations on purchasing an Ozito Mitre Saw Stand. We aim to provide quality products at an affordable price. We hope you will enjoy using this product for many years.

The Ozito Mitre Saw Stand MSS-002 is designed to for the mounting of mitre saws. It is intended for DIY use only.

## GENERAL

1. **Keep work areas clean.** Cluttered work areas can cause accidents.
2. **Consider work area environment.** Keep the work area well lit.
3. **Keep children away.** Do not allow children, visitors or animals to come near the work area.
4. **Do not overreach.** Keep proper footing and balance at all times.
5. **Stay alert.** Watch what you are doing. Use common sense. Do not operate a saw mounted to the stand when you are tired.
6. **Users.** This appliance is not intended for use by young children or infirmed persons without supervision. Young children should be supervised to ensure that they do not play with this appliance.

## SAFETY INSTRUCTIONS FOR MITRE SAW STANDS

- Always ensure the mitre saw base is properly secured to the stand prior to operation.
- Always ensure the stand legs have been locked into place prior to operation.
- Take care when moving the stand especially when a mitre saw is mounted.
- Do not use the stand for any other purpose than what it is intended for.
- Do not use the stand as a stepping stool or ladder.

## ASSEMBLY

### **Unfolding the legs**

Remove the stand from the packaging. Turn the body of the stand upside down so you can see the folded legs.

Extend all four legs and secure with 4 leg locking knobs and washers supplied. Lock the legs in position with the leg locking bar.

When all four legs have been extended and secured in place, turn the stand the correct way up. Ensure all the legs are properly secured.

### **Adjustable Support Rollers**

Fit the support roller (1) through the extension bar and secure in place by tightening roller adjusting knobs (9) which are on the very ends of the stand. The support rollers can be adjusted up or down using the securing knobs.

### **Extension Bars**

The extension bars (2) can be adjusted as required. Loosen the two locking knobs (8) on the side of the stand then extend or retract the extension bars as required.

### **Mitre Saw Mounting Brackets**

The two mounting brackets have adjusting knobs (4) attached. To attach the brackets to the stand, loosen the knobs, fit the bracket over the top of the stand and then tighten the clamps to secure the brackets to the stand.

### **Fitting a Mitre Saw to the Stand**

Loosen the saw mounting brackets. The brackets have slots going down the centre of them. Position one coach bolt into each end of the bracket slots with the bolt head in the slot to fit a total of 4 coach bolts. Fit the mitre saw over the top of these bolts allowing the threaded ends of the bolts to extend through the mitre saw mounting holes. Fix a flat washer, spring washer then nut over the top of each bolt to secure the base of the mitre saw to the stand. Once the saw has been successfully fitted to the mounting brackets, tighten the mounting bracket knob to fully secure the saw to the stand. During operation and before starting a new job, ensure that all bolts and nuts are tightened correctly.

## MAINTENANCE

- Wipe away dirt and dust from the stand on a regular basis.

**Note:** Ozito Industries will not be responsible for any damage or injuries caused by the repair of the tool by an unauthorised person or by mishandling of the tool.
